

# Product List

## Pigments

Titanium Dioxide Rutile R-5566  
Titanium Dioxide Rutile R-760  
Black Iron Oxide  
Red Iron Oxide

## Acid Catalysts

ChanCure B22.5% (N-Butanol)  
ChanCure I 22.5% (IDA 99)  
PTSA (Para Toluene Sulphonic Acid)

## Alkyl Resins

Please call us for more information

## Additives

Caspol 1962  
Copper Carbonate  
Cuprous Thiocyanate  
Sulphated Castor Oils  
Methyl Ethyl Ketoxime (MEKO)

## Lactates

Butyl Lactate  
Ethyl Lactate

## Metal Driers

Calcium 5% Neutral  
Calcium 10% Overbased  
Cerium 10% D60 & Ink Oil  
Copper 8% D60 & Low Leach  
Cobalt 6% Styrene  
Cobalt 6%, 10% and 12% D60  
ECOS ND15  
Manganese 6% and 10% D60  
Potassium 10% D60  
Strontium 10% D60  
Zinc 8% and 22% D60  
Zinc 8% EP  
Zinc 15% Versatate  
Zirconium 12%, 18% and 24% D60

## Combination Driers:

Cobalt 6% / Zirconium 9% D60  
SIL 413 Triple Drier  
ECOS SIL413  
Mix 835 D60  
Mix 26 D60  
Mix 53 D60  
Mix EXPB  
Mix 7 D60  
Mix 20 D60  
Mix 1055 D60  
Mix 1255 D60  
Mix 9 D60  
Mix 330 D60

## Aqueous Metal Driers:

Calcium 4% Aqua  
Cobalt 9% Aqua  
Mix 353 Aqua  
Zirconium 12% Aqua  
Zirconium 12% Aqua

## Others

2-Ethyl Hexanoic Acid  
Acetic Acid 80% Pure  
Aluminium Chloride  
Barium Metaborate  
Denatured Alcohol  
Desmodur  
Desmophen  
Licowax Powder  
Phenodur  
Sodium Bicarbonate (FG)

## \*NEW\*

### CROSSCORE 5000

physically stabilized alkyd emulsion, good drying properties, shows good hardness and reaches extreme gloss levels.

### NOVAL NEXT

German Authorities have proposed a Carc. at. 1B labeling on MEKO Methyl Ethyl Ketoxime). Noval Next is a REACH driven, 1 on 1 replacement to MEKO.

Chantry Chemicals offer a sourcing service and welcome enquiries for products not listed. We also offer a small lot service for an extensive range of materials for the Coatings Industry. Please contact us with your requirements.
